A Book a Month is a school that **teaches literature in English**. It is important to us to offer the best possible language development to our students, so **we teach complementary English classes** for those who wish to study grammar, vocabulary, and reading comprehension. The language classes target **each group's special needs** in order to **accelerate learning**. They are held weekly on Mondays (19h - 20h30) or Thursdays (7:00am - 8:30am). Students have free access to any of these groups. In other words, if they miss one class, they may come to the other, or watch the recorded video. This course complements the literature courses and is available to A Book a Month students who also want to work on their language skills for an extra cost of R\$ 130 a month. It's **the perfect opportunity** to master the language in an **immersive and welcoming environment!**
